AIPL GROUP

ALUMINUM FOIL TAPE

- Dead soft aluminum foil backing conforms to curved and uneven surfaces
- Highly suitable for sealing joints in duct application acting as flame retardant & vapor-proof barrier
- Improves heating and cooling efficiency to protect temperature sensitive materials by dissipating heat
- Available in a range of different foil thicknesses for wider application use

FSK FOIL TAPE

- Foil, scrim and Kraft laminate backing for use on fibrous & sheet metal ducts
- High puncture and moisture proof ensures long life and durability in a variety of applications and conditions
- Highly engineered acrylic adhesive provides long term durability on insulation
- Low cost & highly efficient in HVAC solutions

ALUSCRIM TAPE

- Scrim reinforced for extra strength for patching, sealing and holding applications
- Aluminum backing provides good reflection of both heat and light
- High performance insulation tape for vapor sealing application.
- Good high and low temperature resistance -service temperature: -20°C to +120°C

ALUPET TAPE

- Aluminum foil + PET laminate backing gives excellent reflection of both heat and light
- Highly engineered solvent-based acrylic adhesive offers very aggressive initial tack and a permanent bonding for insulation applications
- Low moisture content – good sealing properties
- Used for sealing and joining ducts which provides an excellent vapor barrier in refrigeration applications

ALUMINUM GLASS CLOTH TAPE - FR GRADE

- Aluminum & fiberglass cloth backing gives excellent reflective properties for both heat & light
- Excellent vapor Barrier due to low moisture vapor transmission rate
- Wide range of temperature (-20° C to 120° C) offer wide range application used in HVAC-R industry
- Roofing application like flashing, joints and insulations

GLASS CLOTH TAPE - FR GRADE

- A high quality pressure sensitive thermal insulation joining tape with a glass cloth mesh face offered 5 mil and 7 mil
- Used as a joining or finishing tape to seal edges and joins in duct and pipe insulation.
- Excellent vapor Barrier due to low moisture vapor transmission rate
- Good high and low temperature resistance -service temperature: -20°C to +120°C

PVC PIPE WRAPPING TAPE - FR GRADE

- Ideal for wrapping pipe insulation in HVAC-R application
- Surface protection, moisture barriers
- Water proof and acid-alkali proof
- Adhesive tape available in both black and white color, non adhesive tape comes in white only

NITRILE FOAM TAPE – CLASS 'O'

- Ideally used for closed tight gasket purpose, for avoiding moisture & dust
- Ideal for wrapping hot or cold piping and fittings
- Excellent for preventing condensation problems
- Good high and low temperature resistance - service temperature: -20°C to +120°C

XLPE FOAM TAPE

- Ideally used for closed tight gasket purpose, for avoiding moisture & dust
- Ideal for wrapping hot or cold piping and fittings
- Excellent flexibility and suitable for Thermal insulation
- General purpose holding, patching sealing applications indoor and outdoor

EVA FOAM TAPE

- Ideal for a wide range of sealing and dampening applications
- Used as weather-strip tape, sealing tape, gasket tape and spacer tape
- Excellent for preventing condensation problems
- Available in a range of different thicknesses for wider application use and comes in both white and black color

DUCT TAPE

- Polyethylene - coated cloth scrim that resists moisture to prolong tape bond
- Ideally used for application like patching, reinforcing, bundling, moisture proofing, sealing and splicing
- Rubber adhesive that adheres aggressively to most surfaces for good holding power and a tight seal
- Ideally used for heavy duty application

SCRIM TAPE

- High density scrim carrier boosts dimensional stability during lamination
- Modified acrylic adhesive offers good initial tack and peel to many open cell foam substrates
- High adhesion for medium and low surface energy materials

AIPL ABRO – GENERAL PURPOSE SEALANT

- Protect and seal with 100% silicone rubber
- Waterproof, Weatherproof, Paintable post-curing
- Won't Crack, Crumble or Dry Out, Resistant to Mold Formation
- Cured sealant is mildew resistant and can be used both indoor and outdoor

AIPL ABRO – PU FOAM INSULATION SEALANT

- Can be used for Seal and Fix application
- Excellent adhesion on most substrates (except Teflon, PE, and PP)
- Improving thermal insulation in cooling systems
- For Sealing Joints, Cracks, Gaps & Holes indoor windows, HVAC, Construction, Roofing & Pipes

NEW LAUNCH FR GRADE

- ★ ALUMINUM TAPE
- ★ GLASS CLOTH TAPE
- ★ NITRILE FOAM TAPE
- ★ ALUSCRIM NITRILE FOAM TAPE
- ★ EVA FOAM TAPE
- ★ EPDM FOAM TAPE
- ★ NEOPRENE FOAM TAPE
- ★ PVC PIPE WRAPPING TAPE

About Us

Ajit Industries Private Limited is one of the flagship company in the country, Engaged in manufacturing of "PRESSURE SENSITIVE SELF ADHESIVE INDUSTRIAL TAPES" since 1998. The Company was incorporated in Delhi by the promoters having several years of experience in the field of various type of Self Adhesive Industrial Tapes. The company is equipped with a "State of the Art" manufacturing facilities at its plants located near Delhi at Kharkhoda in Distt. Sonipat (Haryana), Bhiwandi (Mumbai) and Chennai with a combined spread over 50,000m² facility.
