

AIPL GROUP

# ADHESIVE TAPES & DIE CUT SOLUTIONS

## PAPER MILLS & NEWS PRINT

strong smart stable

**AIPL GROUP**

**D/S REPULPABLE TISSUE TAPE (SUNSUI-801)**

Double sided repulpable splicing tape for splicing paper webs in the paper production and printing industries.

- For flying splices at high speed on off-line coaters and on heatset web offset presses.
- For any kind of paper from light to heavy weight.
- Suggested for paper grades manufactured by neutral papermaking process.
- Suitable for automatic core splicing.
- Ideal for flying splice on fast running machines
- Product is Repulpable in water as per TAPPI UM213

**D/S REPULPABLE TISSUE TAPE (SUNSUI-257)**

P-257 is a repulpable light blue colored tape with tissue paper carrier, Coated on both side with synthetic resins, water soluble adhesive.

- Suitable for very HIGH SPEED FLYING SPLICES application on offline coating plants.
- Recommended for News Paper and paper processing industries for splicing application on medium and heavy weight papers.
- Easy & fast tearing of the excess paper in the splice areas
- Reliable automatic splices at a high speed
- Splices don't slip even under high web tensions
- Best performance in any stage of the splicing process
- Product is Repulpable in water as per TAPPI UM213

**S/S REPULPABLE TAPE (BUTTERFLIES)**

- Fully repulpable (Butterfly single sided application also)
- High cohesion adhesive
- Waste recycling safe splices at high temperature
- Splice go-through does not affect printing and coating quality
- Immediate splice detection
- Permanent butt splices of light and medium weight papers, made at supercalanders, winders before and after off machine coaters
- Once removed from its originals packaging, the tape should be protected from dust and other impurities.
- Product is Repulpable in water as per TAPPI UM213

**D/S TISSUE TAPE - NON-REPULPABLE (SUNSUI P-635)**

P-635 is a special tape which consists of non woven tissue and is coated with strong adhesive on both sides. It bonds firmly on to leathers, clothes, woods, plastics or any two similar of dissimilar materials.

- Manual splicing of paper during processing in finishing house of paper industries. SUNSUI P-635 of the right solution of core starting application in paper industry.
- Reinforcing seams or edges of handbags, wallets or belts during sewing operation.

**D/S TISSUE TAPE - NON-REPULPABLE (SUNSUI P-636)**

P-636 is a special tape which consists of non woven tissue and is coated with strong adhesive on both sides. It bonds firmly on to leathers, clothes, woods, plastics or any two similar of dissimilar materials.

- Splicing papers, plastic films, cloths and corrugated boards
- Acrylic based adhesives provides strong holding power and no adhesive deterioration
- Excellent temperature and solvent resistant
- Good shear strength as the adhesive strength is hardly affected with temperature change and long storage
- No slippage long after applied.

### **D/S TISSUE TAPE - NON-REPULPABLE (EZ-500)**

Special tape which consists of non woven tissue and is coated with strong adhesive on both sides. It bonds firmly on to leathers, clothes, woods, plastics any two similar of dissimilar materials.

- Splicing papers, plastic films, cloths and corrugated boards
- Acrylic based adhesives provides strong holding power and no adhesive deterioration
- Work excellent in high temperature and is solvent resistant
- Good shear strength the adhesive strength is hardly affected with temperature change and long storage
- No slippage long after applied.

### **DS NON-WOVEN TISSUE TAPE (EZ-910)**

High performance double side coated non-woven tape made of conformable carrier and high performance pressure sensitive adhesive. High peel adhesive provides excellent adhesion to variety of surfaces.

- Excellent adhesion to rubber & different types of foams.
- Excellent adhesion to low surface energy plastics.
- Provides good surface for die-punching.
- Good repulsion resistance.
- Best performance in any stage of the splicing process

### **DS NON-WOVEN TISSUE TAPE (EZ-809)**

High performance double side coated non-woven tape made of conformable carrier and high performance pressure sensitive adhesive. High peel adhesive provides excellent adhesion to variety of surfaces. The tape is optimally designed to offer both superior initial bond strength and component bonding strength.

- Excellent adhesion to rubber & different types of foams.
- Excellent adhesion to low energy surface plastics.
- Excellent adhesion at low temperature.
- Good repulsion resistance.
- Superior initial tack gives good balance between initial bond and ultimate bond.
- Provides good surface for die-punching
- Provides superior durability (excellent age resistance).
- Best performance in any stage of the splicing process

### **DS NON-WOVEN TISSUE TAPE (EZ-310)**

High performance double side coated non-woven tape made of conformable carrier and high performance pressure sensitive adhesive. High peel adhesive provides excellent adhesion to variety of surfaces.

- Excellent adhesion to rubber & different types of foams.
- Excellent adhesion to low surface energy plastics.
- Provides good surface for die-punching.
- Good repulsion resistance.
- Best performance in any stage of the splicing process.

### **KRAFT PAPER BASE SELF-ADHESIVE TAPE**

Kraft paper base self-adhesive tape is a product which is made out of kraft paper coated with strong adhesive as the packing solution with special features of high adhesion strength, tear resistant-a next generation product for packing solution.

- Kraft paper base self-adhesive tape is the right choice for the sealing light to medium weight shipping cartons made out of corrugated sheets.
- Also suitable as a security seal due to it's high adhesive power
- In the board manufacturing industry this Kraft paper base self-adhesive tape can be used for BUTT splicing application.
- This tape is Biodegradable and Decompostable

## BOPP TAPES

BOPP is Biaxially Oriented Polypropylene (BOPP) Film coated with water based adhesive and our adhesive tapes are made from superior quality adhesive, which provides high tack and adhesion strength required for sealing of cartons to make them pilfer proof.

- Ideal for Light weight packaging • Re-Inforcing • Splicing • Laminating
- Label Protection • Bundling • Tabbing • Label Protection
- Tapes can be printed with company name or logo for better appeal & identification

## BOPP TAPE RECYCLED CONTENT FILM

A BOPP Tape with 30% & 90%+ Recycled Plastic Content in the film.

- Available in 40, 45 & 46 micron
- 2 Color printing available

### About Us

Ajit Industries Private Limited is one of the flagship company in the country, Engaged in manufacturing of "PRESSURE SENSITIVE SELF ADHESIVE INDUSTRIAL TAPES" since 1998. The Company was incorporated in Delhi by the promoters having several years of experience in the field of various type of Self Adhesive Industrial Tapes. The company is equipped with a "State of the Art" manufacturing facilities at its plants located near Delhi at Kharkhoda in Distt. Sonapat (Haryana), Bhiwandi (Mumbai) and Chennai with a combined spread over 50,000m<sup>2</sup> facility.

### AIPL Quality Policy

1. AIPL is committed to meet the satisfaction of customer.
2. Achieve leadership in all spheres of working.
3. Create a positive working environment and strive for continuous growth and improvement.

We shall achieve this through the following objectives and strategies:

- Adoption of world class organizational and manufacturing practices and quality system standards.
- Advanced Quality Planning to reduce errors and product development time.
- Meeting customer expectations on quality, cost delivery and safety.
- Continuous improvement of products, processes and systems.
- Participating in high performance work culture recognizing innovation.
- Regular need based training and development of people towards a culture of quality.
